I think Polluta is THE FUTURE NOW!			

What is the biggest problem in today's art world?

Irene Dognath

The biggest problem in the art world is that there should be more people in the art world who are open to ALL kinds of art not just the art they do.

Also it's a cliché but there is never enough money for artists and people who run art organizations and do art of all kinds.

We all struggle to keep doing our art. Another problem...sorry I couldn't limit myself to one is a lot of people don't even know what art is so it means artists have to stick together.

Artists belong to a unique group that can't be defined easily!

I think the biggest problem in the art world is that it should be bigger and it would be nice if more people liked art!
